Footsteps, Heartbeat - can't cry, can't sleep  
Colors fading - winter sky  
Miles before you, miles behind  
Darkness laughing, close your eyes  
I'll be waiting with arms open wide  
The perfect picture of the day I died  
Chorus:  
Take my hand,  
I want to lead you to the other side of forever

Follow me,  
I want to run with you through Heaven's fields of gold  
Falling faster than Autumn leaves  
Faith could save you if you'd only reach  
I'm still waiting with arms open wide  
The perfect picture of the day I died.  
(Chorus)  
(Repeat three times)
