Imagery

We never come to see is blind

Far outside

The covers we hide behind

Daylight

Turning into deep night

Insight

Forever you know

Never never comes

Never never comes

Never never comes

Never never comes

Somewhere far

We used to be we are and proud

Visions we can

Never come to see are loud

Daylight

Turning into deep night

Insight

Forever you know

Never never comes

Never never comes

Never never comes

Never never comes

Never never comes

Never never comes

Never never comes

Never never comes
