I cannot remember feeling quite so self assured
It must have been back in my teens
I was such a basket case when I was young
It's obviously something that I dreamed

I have always been a most reclusive kind of guy
When love's around, I usually run and hide
But don't you go believing I was ever that confused
I was really only waiting for you

Really only waiting for you
And what do you suppose that we can do
Anything, whatever that you want to last forever
Really only waiting for you

And I cannot escape the over-whelming feeling
Destiny has taken us in hand
And nothing that we do is gonna change the way
This love affair is never gonna end

And I know it's hard getting used to the idea
That your lover wants to be your best friend again
With a showing of affection and a measure of romance
Is it really only waiting for you?

Really only waiting for you
And what do you suppose that we can do
Anything, whatever that you want to last forever
Really only waiting for you
Waiting, waiting
Only waiting for you
Waiting, waiting
Only waiting for you

I've been living by myself, I do not want for someone
else
At least that's what I like to say
And it was working 'til the other day
I met you and I fell in love from twenty yards away

I've got one last truly great love left in my life
And my heart is telling me it might be you

So forget your disappointments, I'll forget about my
past
I was really only waiting for you

Really only waiting for you
And what do you suppose that we can do
Anything, whatever that you want to last forever
Really only waiting for you

Really only waiting for you
And what do you suppose that we can do
Anything, whatever that you want to last forever
Really only waiting for you
