Lying in my bed
I hear the clock ticking and think of you
Caught up in circles
Confusion is nothing new
Flash back - warm nights
Almost left behind
Suitcase of memories
Time after some times you pictured me
I'm walking too far ahead
You're calling to me
I can't hear what you've said
Then you said
Go slow, I fall behind
The second hand unwinds

Chorus: (3x)
If you're lost you can look
And you will find me
Time after time
If you fall I will catch you
I'll be waiting
Time after time

Secrets stolen from deep inside
The drum beats out of time

Chorus: (2x)
If you're lost you can look
And you will find me
Time after time
If you fall I will catch you
I'll be waiting
Time after time

Time after timeâ€¦!
