Midnight happens everyday  
And I blame it all on you  
We try so hard to walk away  
Leaving you is hard to do  
I can count it on my hands  
The reasons why I'm not your man

It could be something like the weight of the sun  
It could be nothing more than: you're not the one  
I take my chances just like everyone  
I take my chances

Almost nothin' makes my day  
But when I lie around with you  
You always seem to find the shade  
With every light you walk into

It could be something like the weight of the sun  
It could be nothing more than: you're not the one  
I take my chances just like everyone  
I take my chances  
Oh

Midnight (4x)
