So beautiful you are
I would never take for granted
Much more than a star
See you're like a planet
And that's where I would be
It brings me pleasure
I'm all in your world
And it don't get no better (no)

Never knew love like this
I used to be so cold
To everyone woman I met
But girl you broke the mold
Yea I get so weak
Whenever she speaks
She's all that I need
So much more, more, more

Chorus:

I could spend all of my time trying to get know ya
Wanna Love you the rest of my life
F**k it just get to hold ya
And baby no I don't mind I do anything to show ya
If it makes you happy (If it makes you happy)
Would that make you happy? (Would that make you
happy?
no no yeah)

See you so shakespearean
Like a text book low
It's like the whole experience
Everytime that we touch
Time and time again
I try not to pretend
How sick that I get
Butterflies in my stomach

Girl don't let go
What you do to me is
Watching my soul
Like a point from Cupid's arrow
I get so upset

When were not together
Girl a storm could set
We will make it through the weather

Chorus:

I could spend all of my time trying to get know ya
Wanna love you the rest of my life
F**k it just get to hold ya
And baby no I dont mind I do anything to show ya
If it makes you happy (If it makes you happy)
Would that make you happy? (Would that make you
happy?
yeah yeah)

Your my lady, I give all my love to you
Your my baby, Theres nothing that I wont do
Girl you make me, Crazy when I'm without you
I'm lost, I'm lost

Your my lady, I give all my love to you
Your my baby, Theres nothing that I wont do
Girl you make me, Crazy when I'm without you
Im lost, Im lost, I'm lost, I'm loost

Chorus x2:

I could spend all of my time trying to get know ya
Wanna love you the rest of my life
F**k it just get to hold ya
And baby no I dont mind I do anything to show ya
If it makes you happy (If it makes you happy x2)
Would that make you happy? (Girl that makes you
happy
yea yeah)
