I see you there with no makeup on
Standing strong no you don't belong
Here and now so just sing along

Stand on the wrecking ball of a new day a new way on
Stand on the wrecking ball of a new day a new way on

See you there with your fake face on
Standing proud even though you don't belong
Here right now so we'll just sing along

Stand on the wrecking ball of a new day a new way on
Stand on the wrecking ball of a new day a new way
Come along on a new day a new way
I refuse to let you stand in my way

Lashing out because you're feeling lost
Laughter's loud, slowly, slowly building up
Hear this now so we'll just sing along

Stand on the wrecking ball of a new day a new way on
Stand on the wrecking ball of a new day
It's the only way out
I refuse to let you stand in my way
I refuse to let you stand in my way
