Edney) \* \*\*

I could be your lover  
I could be your friend  
It's one or the other  
Or is that where it ends

'Cos I never see you  
And you never call  
I want to be near you  
To hold you that's all  
Be there if you fall

Baby it's alright  
For the first time I could be strong  
I need you near me tonight  
Must be the right time  
How could it be wrong?  
How could it be wrong?

You gave me my heartache  
You give me my blues  
I'm here in your doorway  
I got nothing to love  
And cryin' no use

Baby it's alright  
For the first time I could be strong  
I need you near me tonight  
Must be the right time  
How could it be wrong?  
How could it be wrong?

And if you should decide honey  
You need a love that's good  
It ain't about pride  
It ain't about manhood and baby it's alright
