Taylor)

How do you do - whatdya say

Welcome to - a new dark age

Let's go straight to bed

Love's got outta hand

you must be outta your head

When you feel in the night

This can't happen to you

It's war that we fight

Yes we do

Yes we do

Welcome to - a new dark age

Welcome to - a new dark age

Only love can save us now

Love has become - a four letter word

It's past it's best - and seldom heard

Love's left on the shelf like- cigarettes

It's bad for you health

And you feel in the night

It's scary thing

You believe in in what's right

Take care - stop to think

Welcome to - a new dark age

Welcome to - a new dark age

Stop! + Take + Care + Think!

Is - this - real - love?

And you feel in the night

Can't this dream be true

It's war that we fight

Don't let it happen to you

Welcome to - a new dark age

Welcome to - a new dark age
