Macrae)

She's hot wire baby, got a passion for trash

She can run my motor, when I'm flat out gas

She sparked me up, made me take a look, she said

There's only one way, You can't get in my book

Down, down, down, baby get down

Down, down, down, as low as you can go

Down, down, baby get, down, she said

You'll never know just what you can do until I show you

She got take me eyes, all the way smile

Gotta do whatcha do, when her lights are on you

She took my loving, lust, passion and cash, and now

Nights I'm dreaming of passion for trash

Down, down, down, baby get down

Down, down, down, as low as you can go

Down, down, baby get, down, she said

You'll never know just what you can do until I show you
