Back off - I was in the lines
where they say you can't come,
back from the dead again
Who lies? Some many times
I can't count on one hand
cause they cut it from the inside
Why? Now is the time
to put back on my arms.
and show them how to sacrifice
My life - has never been the same
cause this world will never change.
now I'm changing
Who will decide, the rules of this life?
I finally found, I found the sign.
I lost my self control
I must have full control
I lost my self control
I must have full control
Who's that? Standing in the dark
with a smile on his face.
misleading from the window
Back off - No one needs to see
what the sign will never read.
fuckin up your life now
Slave- to the machine, another
world that I leave
fuckin up your sight now.
You're right - Never been the same
cause the world will never change
and now I'm changing.
Who will decide, the rules of this life?
I finally found, I found the sign.
I lost my self control
I must have full control
I lost my self control
I must have full control
I'm so sick of your innocence.
you we're never on my mind
