

## Crossbreed "Regretful Times"

Visit "[Regretful Times](#)" on [MotoLyrics.com](https://MotoLyrics.com)

The doors open into the room  
A fulfilled life and a lot to regret  
For the summers rays and winters cold  
Not either way and not regretful

I will not survive  
I will not survive  
I will not survive  
Somebody will save me

The damaged style and damaged skin  
Is peeling off and burning within the tearful eyes  
And drowning frowns soon collides  
And now it meets its destination

I will not survive  
I will not survive  
I will not survive  
Somebody save me

The passion times, there's not many through  
I'm down on luck and there's too many to remember  
The broken dreams and broken thoughts  
My head's up high and I won't survive

I will not survive  
I will not survive  
I will not survive  
Somebody save me
