On this night with the last of the lonely
Every tongue every language
We only will be singing of love
Will be singing of joy
I will be the reward for your patience
For your love, For your all desperations
Like a star in the sky I will fall for you boy
There's no peak too high to reach on our own
I'm still here for you
We're still not alone
She won't let us out of this vicious circle

You gotta kill my girlfriend
You gotta kill my girlfriend

On this night with the last of the lonely
Every tongue every language
We only will be singing of love
Will be singing of joy
We could have so much more to remember
If not for this supplementary member
That you've got to destroy
That's enough of convoy
There's no peak too high to reach on our own
I'm still here for you
We're still not alone
She won't let us out of this vicious circle

You gotta kill my girlfriend
You gotta kill my girlfriend
You gotta kill my girlfriend hua hua
You gotta kill my girlfriend hua hua

If you cannot handle this on your own
I'll be there to help
I'm here for you
But we re never alone
She won't let us out of this vicious circle

You gotta kill my girlfriend
You gotta kill my girlfriend

You gotta kill my girlfriend hua hua
You gotta kill my girlfriend hua hua

You gotta kill my girl...
