The righteous gather to deliver judgement
Never caring for the needs of the poor
Are you pro-life when you bomb their clinics
Killing the unborn and the born
It's also a sin to use protection
Or that is what you have us believe
You don't care 'cos it doesn't affect you
You're too fucking old to conceive

Wallow in hypocrisy
Wallow in hypocrisy

From where I stand and hear you talk, it really makes
me sick
What's even worse is people seem to listen to these
hicks
A woman's body's not your provence, none of your
concern
So go back to your bible belt, you've got a lot to learn

Adoption's not the answer either
Is it fair for you to say
That she should go through prenanacy
So a total stranger can take it away
Why don't you just mind our business
Leave the rest of us alone
'Cos I don't care about the bible
Or what your holy pope condones

Wallow in hypocrisy
Wallow in hypocrisy

From where I stand and hear you talk, it really makes
me sick
What's even worse is people seem to listen to these
hicks
A woman's body's not your provence, none of your
concern
So go back to your bible belt, you've got a lot to learn

The righteous gather to deliver judgement

Never caring for the needs of the poor
Are you pro-life when you bomb their clinics
Killing the unborn and the born
It's also a sin to use protection
Or that is what you have us believe
You don't care 'cos it doesn't affect you
You're too fuck old to concieve

From where I stand and hear you talk, it really makes
me sick
What's even worse is people seem to listen to these
hicks
A woman's body's not your provence, none of your
concern
So go back to your bible belt, you've got a lot to learn

Wallow in hypocrisy
Wallow in hypocrisy
Church and state conspiracy
Wallow in hypocrisy
Barring any leniency
Wallow in hypocrisy
Ancient in their dormacy
Wallow in hypocrisy
They wallow in hypocrisy
Wallow in hypocrisy

Hypocrisy

Wallow in hypocrisy
