Another day has passed you by  
And now it seems that you don't care  
You've let your life slip away  
You feel no pain, you feel no joy  
You've let your feelings fade away  
You've let life tear apart your soul

Feel no pain [2x]

*You must wake up and perceive  
That you are not a victim here  
You're a traveller through this life  
Noone persecuted you  
You've brought it down upon yourself  
And now you're standing on the edge*

*Feel no pain [2x]*

*Take a look at where you are  
And then look back to where you were  
And think of how you got there  
Work at repairing your life  
You can't just throw it all away  
You've got to stick it to the end*

*Feel no pain [2x]*
