

## **Nuclear Death "A Dark Country"**

Visit "[A Dark Country](#)" on MotoLyrics.com

Radiation's children taken by the hand  
and led to darkness  
Chemically wasted warriors roam the land  
in search of madness  
What's left of freedom matters no more  
death is always here  
In the world of darkness and death  
innocence lives in fear...  
Salvation is lost, death is god  
faith is damnation  
Radiation's children taken by the hand  
and burnt to blackness  
Whats left of life exists no more  
death is always here  
World of darkness. world of the dead  
will rise...
