Welcome to the minds of the morbid, death's plan  
revealed to all

a sanctuary secluded in darkness, a haven for  
demented lust.

Apprentice to the jackal, creature of darkened desires  
demons haunting his mind, a sickness which grows  
from within...

Disgusting nest of fifth, breeding forth his disease  
suffering through this life, his mind exists no more!

Sheltered from the light of day, he awaits the right  
masturbating in the dark and praying to his god.  
Vulture of inhuman needs, his hunger can no longer  
wait

fucking animals long dead, bodies encrusted in the  
street...

Disgusting nest of fifth, breeding forth this disease

suffering through this life, his mind exists no more!

Desecrate...mutilate...the beast of a lesser god  
Copulate...with the dead...animal lying in the street  
Sickness swells...within his soul...to consume the  
flattened beast

Antichrist...fuck you all...the fucked shall inherit the  
earth!

Decaying flesh of discarded fives  
animal skulls without eyes  
rancid stench it draws the flies  
inhuman creep, a corpse his bride...

Living in a nest of fifth  
breeding forth his disease  
suffering through his mind  
his life exists no more...
