A dog playing in garbage  
an image of hyenas and detahs leftovers;  
a dog plying with a dead fish  
found admidst the debris...

He smells the air -  
the juices of the spoiled fish  
the sour garbage and the sex of the dog...  
As the sky turns to dark  
he follows the dog by way of alleys.  
He has an erection...

He rises up out of the dirt  
and he pretends to breathe  
the beuty of the setting sun  
brings a depraved glamour to his night..  
He is the corpse that kissed the leper  
and pulled away with the lepers tongue.  
He was seen by the roadside  
fucking something dead...

It rises upout of the dirt  
and it pretends to breathe  
It is the corpse of a dog  
and it is pregnant...

Children playing in garbage  
an image of hyenas and death leftovers;  
Children with tails and coarse hair  
barking at something dead...
