Could you try to keep it down I was up kinda late last night

Yeah, I'm feeling like I usually feel after I feel alright

I don't wanna hear another word about morning

I can't take the light

Could you try to keep it down I was up kinda late last night

there's something inside this world that's gone so wrong

There's a gap between the rich and the poor a million miles long

I dig the fact that you and your friends, you wanna stand up and make it right

Could you try to keep it down I was up kinda late last night

I was down at the bar like the fool I am

Dancin on the table to Son of Slam

I met a whole lotta people I still don't know

I just rolled in an hour ago

Could you try to keep it down

Try to keep it down

Try to keep it down I was up kinda late last night

I don't wanna hear about your Lollapaloza tour

Man, I just woke up and where I am I couldn't say for sure

I ain't the kinda guy to come and break all of you records

but then again i might

Could you try to keep it down I was up kinda late last night

Could you try to keep it down

try to keep it down

try to keep it down I was up kinda late last night
