

Cross Canadian Ragweed "To Find My Love"

Visit "[To Find My Love](#)" on MotoLyrics.com

There's a view from here where you can see tomorrow
And after that it's up to you
There ain't no point in trying to drown your sorrows
The point is they're drownin' you

And fools like us, we've got to stay together
If we're partyin' in the streets
'Cause we both know how plans can change
Quicker than a heartbeat

Chorus:

And I have searched the world to find my love
And I have searched my soul to find my love
I just wanna be sure the love we share is strong and
pure
And I have searched the world to find my love with you

You still get a broken dream for a dime a dozen
Get a broken heart for less
You steal a poem from your second cousin
But you better get your money blessed

And fools like us, we've got to stay together
If we're partyin' in the streets
We both know how plans can change
Quicker than a heartbeat

Repeat Chorus

There's a view from here where you can see tomorrow
And after that it's up to you
There ain't no point in trying to drown your sorrows
The point is they're drownin' you

And fools like us, we've got to stay together
If we're partyin' in the streets
'Cause we both know how plans can change
Quicker than a heartbeat

Repeat Chorus
