After the victim's final plea, from the scene you will flee  
Then you wait until the night, keep yourself out of sight  
Hiding out in the trees, cold sweat as you freeze  
French come hunt you down, await the trial back in  
town  
Off with your head!  
Soon you'll be dead!  
Bloody and red!  
Corporation Pull-in  
Evidence piles high, jury looks you in the eye  
Primitive society, convicts you - you're guilty

From your window you will see where your figure is to  
be  
You can't sleep, you can't eat 'cause you know that  
you're  
dead meat  
Time has come, you will die - see the fear in your eyes  
Drop the blade, hear the chop - now your life and all will  
stop  
Off with your head!  
Now you are dead!  
The blood is so red!  
Off with your head!  
Off with your head!
