And by the way I had to come to you
To see if the love that we knew before
Could pass the test of time
Time - it changes almost everything
Sometimes I don't see the better side
Of the feeling we both share, so baby
Chorus:
Let's go round again
Maybe we'll turn back the hands of time
Let's go round again
One more time
(x2)
One more time
Now baby I know
That you think I might be different now
Inside of me nothing has changed
So I'm asking you again
Please, no else could've bought me back
No one else could ever set me free
Of the memory I had within my heart
Repeat chorus
One more time(x5)
Repeat chorus to fade
