"Now And Forever"

Visit "[Now And Forever](#)" on MotoLyrics.com

With just one touch I can feel my body give in
Now is the time
I can not hide the desire I feel inside
Won't you take all of my love and stay the whole night
Now we're two hearts, two hearts that were made as
one
Theres no one else I want

Chorus:

Baby now and forever won't you stay with me always
You're the one that gives one touch and I can't let go
Baby now and forever won't you stay with me always
I'm the one that gives one touch and you can't let go

Hold me in your arms
Can't you feel my heart beats rapid pace
This room feels so hot as if the fire keeps burning and
never
stops
Won't you place your hand in mine and never go away
Show me all of the passion you have inside
Take your own stride and love

Chorus (3x)
