I feel no connection
I guess everyone is right
It's no longer about the art
It's about attitude, clothes and tattoos
And we got plenty, we can fake it all
We can fake it, I think the kids will buy it
We can fake it all
I think everyone will believe it!

And we can fake it all
We can fake it, I think everyone will buy it
We build foundations
They build factories mass market close to our hearts
With a cookie sheet cut outs of the same things
Emotions and our ideas
Can you fake it all, we can fake it

I hope everyone believes it
Can you fake it, I hope everyone believes it
And you can fake it all, and I can fake it
I think everyone will buy it, We can fake it all
We can fake it, I think everyone would buy it
I think that they would.
