When it all comes down
To guitars and records
We will know how to go about this
Because it's all about honesty and emotion and trust,
friendship and faith

And I don't think we have anything else to live for, we
need heart,
Yes we need faith in a force that we can rely on
You need this, I need it,
So let's all agree
If it's not real, If it's not sincere
Then I don't want any part of this

This is my revolution
I will go down with this stale and old
There comes a time
Choose how your life is saved
I hear the records

I know my life's secure
You can talk talk talk
But I won't be listening
I'll be too busy to the records spinning

And you can talk all night
And I won't hear it, No.
I hear my favorite records on; I know I'm secure.
