Ever since the first day I met you  
Ever since the first time I saw you  
I knew that it had to be me and you  
Me for you  
Me with you  
Forever, forever, baby, forever

If you were my baby  
I would give you everything  
And if I owned the world, girl  
It would be all yours, all yours  
We can build a house made for two  
It will be me and you  
We can raise a family  
A girl for you, a boy for me  
Oh, baby, baby

Baby, you know  
That we should be together forever  
Come on, come on, come on  
Come on come on

And baby, you know  
That you should be with me forever  
Come on, come on, come on, come on, come on

Here I am with open arms  
Willing to give it  
My all and all  
And girl just trust in me  
Put your heart in my hands

I promise I won't hurt you baby  
'Cause if I hurt you I'll be hurting me  
Just open up your heart  
Let me in  
Let, let me in

Baby, you know  
That we should be together forever  
Come on come on come on  
Come on come on

And baby, you know  
That you should be with me forever  
Come on come on come on  
Come on come on

Girl, don't be afraid  
I wanna give my all and all to you, babe  
Oh, baby, oh, baby  
I got what you need  
Girl, you know you ought to be with me  
Girl, I love you, girl, I love you

I'll do anything for your lovin'  
Baby, you know  
I'll do anything for your huggin'  
Now baby, you know  
Baby, you know

I'll do anything for your lovin'  
I'll do anything for your kissin' babe  
I'll do anything for your huggin'  
I'll do anything without missin', babe

Baby, you know  
That we should be together forever  
Come on, come on, come on, come on
