And they cover hate with faith
And they justify genocide

In the name of their god
What makes a benevolent religion
Misanthropic

Freedom being compromised
By symbols, slogans, lies

And I bow down to an idol of church & state
But I'm steadfast in my convictions
I walk around with opinions formed from dogma

Stepping over the dead bodies of thousands
Tell your children x3
They have to die x2

Freedom being compromised
By symbols, slogans, lies

Tell your children x3
We have to die x2

Freedom being compromised
By symbols, slogans, lies

And they cover hate with faith
