# "Set The Night On Fire"

Visit "[Set The Night On Fire](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Darkness brings a cool wind blowing  
And the city streetlight's on  
You've got the keys the convertible top's down  
I've been waiting so long

How hot can we run  
Before the morning sun

(Chorus)  
We're gonna set the night on fire  
We're gonna burn it down with desire  
We're gonna set the night on fire

Rock 'n roll on the radio  
Midnight makes us bold  
We find ourselves on a sea of lights  
Then we loose control

How far will we go  
Before our hearts say no

(Repeat chorus)

(Bridge)  
Blinded by the brightness of the fire burning in our  
eyes  
Crazy with the power that we've captured from the  
midnight skies  
The night burns bright

On the streets in a desperate fever  
Flashing neon signs  
We see our fears in the rear-view mirror  
Leave them far behind

As the nights unwinds  
We'll still be runnin' blind

(Repeat chorus)
