### "Boy With The Blues"

Ya sing, ya shout, ya turn the world around  
Yeah, we come out together for you

Ya let me see the man I'm gonna be  
Yeah, we come out together for you

Remember to shine  
Let my love take you high  
You've nothin' to lose  
Yer just a boy with the blues

Ya take a vow never to back down  
Yeah, we come out together for you

And my dreams are bound to come true somehow  
Yeah, we come out together for you

Remember to shine  
Let my love take you high  
You've nothin' to lose  
Yer just a boy with the blues  
Remember to smile  
Let my love take you high  
I'm nothin' to lose  
I'm just a boy with the blues  
Yeah

Come out together, come out together  
Come out together for you...
