"Must Be The Music"

Visit "[Must Be The Music](#)" on MotoLyrics.com

Sometimes I listen to what people try to say
And then when I tune in I think, no that's not the way
Sometimes I listen to what people have to say
And then when I tune in I think, no that's not the way

It must be the music
It sounds so confusing
It must be the music
That's opening my eyes
It must be the music
It sounds so confusing
It must be the music
Making me realise

Sometimes I listen to what people try to say

And then when I tune in I think, no that's not the way
Sometimes I listen to what people have to say
And then when I tune in I seem so far away

It must be the music
It sounds so confusing
It must be the music
That's opening my eyes
It must be the music
It sounds so confusing
It must be the music
Making me realise
