Your the devil in me, I brought in from the cold
You said your body was young but your mind was very
old
Your comin' on strong and I like the way
The visions we had are fading away
You're part of the life I never had
I'll tell you now it's just too bad
I'll tell you now it's just too bad
I'll tell you now it's just too bad
I'll tell you now it's just too bad
Your comin' on strong
Your comin' on strong
Your comin' undone
Now your setting sun

Your the devil in me, I brought in from the cold
You said your body was young but your mind was very
old
Your comin' on strong and I like the way
The visions we had are fading away
You're part of the life I never had
I'll tell you now it's just too bad
I'll tell you now it's just too bad
I'll tell you now it's just too bad
I'll tell you now it's just too bad
I'll tell you now it's just too bad
