One year ago I was rock 'n' roll star  
I watched television and I saw the war  
I thought that it's so far away from me

Now I'm a soldier and I have a gun  
I try to save my daughter  
I try to save my son  
I try to save my country where I live  
All my life

Why why we must fight  
Every day and every night  
Why why why we must die  
(Why why why we must) [x2]
