Salvation, soul searching
For lost innocence, I feel it coming
I feel it coming, coming in waves
Coming in waves

Created my own world
Created my own world
The angels, they carry me
The angels, they carry me

It's such a long way home

Salvation, I feel it coming
Coming in waves, coming in waves

Created my own world
Created my own world
The angels, they carry me
The angels, they carry me

It's such a long way home
It's such a long way home
Such a long way home
It's such a long way home
