"How Will You Go"

Visit "[How Will You Go](#)" on MotoLyrics.com

Escape is on your mind again
Escape to a faraway land
At times it seems there is no end
To long hard nights of drinking

How will you go? How will you go?
Drive through the wind and the rain
Cover it up, cover it up
I'll find you a shelter to sleep in

I fell over on the couch again
But you know not all sleep is wasted
Your dreams are alcohol inspired
I can't find a better way to face it

How will you go? How will you go?
Drive through the wind and the rain
Cover it up, cover it up
I'll find you a shelter to sleep in

And you know, I'll be fine
Just don't ask me how it's going
Gimme time, gimme time
'Cos I want you to see
'Round the world, 'round the world
Is a tangled up necklace of pearls

How will you go? How will you go?
Drive through the wind and the rain
Cover it up, cover it up
I'll find you a shelter to sleep in

How will you go? How will you go?
Drive through the wind and the rain
Cover it up, cover it up
I'll find you a shelter to sleep in
