Here's someone now whose got the muscle
His steady hand could move a mountain
Expert in bed but come on now
There must be something missing

That golden one leads a double life
You'll find out

Tell me I don't know where you go
Do you climb into space
Into the world where you live
The world where you live

And so here we lie against each other
These four walls could never hold us
We're looking for wide open spaces
High above the kitchen

And we're strangers here
On our way to some other place

Oh I don't know where you go
Do you climb into space
To the world where you live
The world where you live
The world where you live

Friends come round
You might remember and be sad
That behind their eyes is unfamiliar

Do you climb into space
To the world where you live
The world where you live
To the world where you live
To the world where you live
To the world where you live
