We summon the almighty clouds of darkness  
Now we will rise as never before  
We will release the powers inside us  
A statue will be left after this

The black...  
The black...  
The black...  
The black...are...rising!

I saw a million dead lying in this field  
I saw a million soldiers praising themselves  
I saw a thousand people torture the weak  
I saw a thousand children hanging on trees  
I saw rivers containing blood and flesh  
I saw houses burning down the ground  
I saw bodies bursting out of granets  
I saw babies smashed to the wall  
This is war!!!
