The apprehensive conditions of our nation  
Is now expunged within human nature  
Surrender severely subliminal  
Upon the mercy of apparitions  
Whom expressed little incentive deliberation  
In exchange for their beliefs  
Do merely exist  
Below their pedestal of deceit  
Provided a mental solitude for extract from their  
design  
The outside is truly like a fine minute of this life  
Do you decide to fight in resistance?  
Do you dare defy what subsequent exist in  
confinement?
