Say goodbye to all your friends
Time to leave and go home again
Sanctify and leave behind
Leave behind the sun

Everyday would pave the way for endless nights and
dancing
And every night will fire our minds and liberate our
souls
A home from home
A place where we can go and still be free

There's nothing like you and me
On a beach
Moving with the waves in the sea
There's nothing like you me
Out of reach
On the beach
There's nothing like you and me

We will all be made to play
Winter months will just fade away
Making friends and sleeping in
Sleeping in the sun

Everyday would pave the way for endless nights and
dancing
And every night will fire our minds and liberate our
souls
A home from home
A place where we can go and still be free

There's nothing like you and me

There's nothing like you and me
On a beach
Moving with the waves in the sea
There's nothing like you me
Out of reach
On the beach

There's nothing like you and me

Leave the clear blue sky
You and I
On the beach

There's nothing like you and me (leave the clear blue
sky)
Out of reach (you and I)
On a beach (on a beach)
There's nothing like you and me (leave the clear blue
sky)
(You and I)
On a beach
