Infiltrating defences, evolving with every strand, the contagion continues to spread.  
Stranded in a devastated wasteland of contaminants, the population is slowly depleting in distress.  
What remains of a helpless civilization is depleted by an invisible threat.  
So government drastically exerts it's power.  
Through the provision of new laws and enforcement of home invasions to search and extract those infected.  
Containment camps are erected for protection under the "Anti-contagion act".  
A document that holds no truth within it's pages and provides no real solutions.  
This is a persuasive attempts to futher oppress you.  
This is corruptive.  
Witness a greater vision.  
To purify the nation of it's ailments, human rights are compromised, marshal law is put into effect to suppress public action and freedom of speech.  
Politics swiftly evolve into a fascist tyranny.  
Witness a greater vision.  
Infiltrating defences and evolving with every strand, the contagion shall continue to spread.  
This is a greater vision a long awaited master plan, which will begin and end in your oppression.
