"Empathy For Leviathan"

I am disgusted at the sight of your breed. I am the ocean stained of your existence. I am Leviathan, the great demolisher, conducting form beneath. I shall summit your futile species through infinite tortures of the deep. Abandoning you emaciated, amongst darkness. It pleases me to witness your macerated corpse endure torment at these depths. Until this moment did you not expect any repercussion? You're just as guilty as all the rest. There is no god to pray to for deliverance. At these depths he does not exist. So believe in me. BELIEVE IN ME.
