[Eva Simons]

Let's go take a ride in your car  
I will take the passenger to seat  
Baby we don't have to go far  
Unless you want to show  
Be at a lovely place out of town  
Where you feel most steady  
Well you are the one that i like

Always will be time to let you know  
Know when you feel when you take hold  
One single touch from you i'm gone  
Still got the rush when i'm alone

I think it's time i let you know  
Take over me i will be flout  
You set me free my body's yours  
It feel the best when you're involved...

I want you to  
Take over control  
Take over control  
Take over control

Oooh I want you to  
Take over controlllll

Plug it in and turn me on

I want you to  
Take over control  
Take over control  
Take over control

Oooh I want you to  
Take over controlllll

Plug it in and turn me on

I want you to  
Take over control  
Take over control

Take over control

Oooh I want you to  
Take over controlllll

Plug it in and turn me on

Baby, baby can't you see  
That i'm giving all of me  
So it's up to you now  
We could let them pass away  
Only can excuse to play  
But it's up to you now  
Just wanna fulfill your needs  
That's why you taking over me  
So what do you want now?  
Take a picture, make a show  
Cos nobody yes and no  
All the ways that we get down

I want you to  
Take over control  
Take over control  
Take over control

Oooh I want you to  
Take over controlllll

Plug it in and turn me on  
Plug it in and turn me on  
Plug it in and turn me on  
Oooooo  
Plug it in and turn me on  
Plug it in and turn me on  
On, on, on, on...
