"Kill 'Em All"

Evil heat - Heavy glow Feel it in my soul No rest for me -
No rest for you Damned to Rock'n'roll
Burning feeling - Guiding light Still one star in sight
'Cause you're so sweet it blows my mind
Gets me every time
Into the darkness Still my heart is true Across the abyss
Riding on the pandemonic waves to you
Kill 'Em All - Kill 'Em All - Kill 'Em All
Never beat - Keep the hold The going is the goal On my
feet down the hole Alchemy of soul
Through defeat play my role Turn to steel to gold Feels
so fine it blows my mind Gets me every time
Keep on trying - Going down in style Keep on trying Get
this deathmachine of rock to roll yeah!
Kill 'Em All - Kill 'Em All - Kill 'Em All
Into the darkness Still my heart is true Across the abyss
Riding on the pandemonic waves to you
Into the darkness - As deep as I can go The light is
within me - Star of blasphemy
The crown of Death is gonna kill 'em all! The royal 5 is
gonna kill 'em all!
This deathmachine is gonna kill 'em all!
Star of blasphemy - The Crown of God
