THE SPEED OF DARKNESS

Music & Lyrics: Magnus Olsfelt

Those you know Â– don't speak

Those you speak Â– don't know

Knowledge no words can contain

In the silence between your chattering thoughts

You dream of light that do not die

Well, think again

Saying prayers for your soul to save

You're wrong again

Helpless, weak and afraid

Drawn into the light of doom

And like moth to the flame

You're consumed

Bridge:

Belief Â– as hollow as fear

Darkness Â– The way of the force

Chorus:

The Speed of Darkness Â– Rebel soul

The Speed of Darkness

Riding with the Speed of Darkness

Faster than the speed of light

Together with the Speed of Darkness

Shining on through the night

From Darkness all is born

And to Darkness all return

You try so hard to follow Â– I know no path

You pray and kneel and worship Â– I do not care

With no way to follow Â– I can't be lost

When free of all illusion Â– There is just force

Bridge:

The way of no roads

The freedom here at the peak of time

Chorus:

The Speed of Darkness Â– Rebel soul

The Speed of Darkness

Riding with the Speed of Darkness

Faster than the speed of light

Together with the Speed of Darkness

Shining on through the night

The Speed of Darkness (x6)

Hell Å– for the helpless ones  
I take and make it my heaven  
Hell Å– for the helpless ones  
I am at one with Darkness  
(Lead: Marcus Sunesson)  
Before the beginning  
After the end  
Like cattle who in panic flee  
From the fire  
You will run in fear until you fall  
All burning  
(But) those who stand and turn towards the flames  
Through the inferno  
Shall survive on the other side  
Where the ground is cleansed  
Bridge:  
For those who turn to Darkness  
Are in Endlessness  
Chorus:  
The Speed of Darkness Å– Rebel soul  
The Speed of Darkness Å– Do you know  
The Speed of Darkness  
The Speed of Darkness  
Riding with the Speed of Darkness  
Faster than the speed of light  
Together with the Speed of Darkness  
Shining on through the night  
Riding with the Speed of Darkness  
Faster than the speed of light  
Forever with the Speed of Darkness  
Shining on through the night  
All Light Gone Å– All Night Long (x4)
