Chipz in black (who you gonna call)

There 's something strange, knocking on your door.
You don't know who to turn ,you can't take it anymore
There's something wierd, right above your roofe.
You don't know who to call, there's an ET on the move.

Chipz is back, we are back in black.
Making up a story as we cover any traks.

Who you gonna call when you're home allone
Who you gonna call tonight
Who you gonna call in the twilight zone
Chipz is gonna make it right.

Chipz is back , back in black
Chipz is back

There's something strange, crawling on the floor
You run up to your naighbours, you can't take it
anymore
There's something odd, you feel it in your hair
The UFO is lifting as you look up in the air

Chipz is back, we are back in black
Making up a story as we cover any tracks

Who you gonna call when your home allone
Who you gonna call tonight
Who you gonna call in the twilight zone
Chipz is gonna make it right

Chipz is back

Who you gonna call when your home allone
Who you gonna call tonight
Who you gonna call in the twilight zone
Chipz is gonna make it right

We taking up and down

we're looking all around
we're going into places where the aliens are found 2x

Chipz is back,we are back in black
Making up a story as we cover any tracks

Who you gonna call when your home allone
Who you gonna call tonight
Who you gonna call in the twilight zone
Chipz is gonna make it right

Who you gonna call when your home allone
Who you gonna call tonight
Who you gonna call in the twilight zone
Chipz is gonna make it right

Chipz is back !
