Proud humans
You think you are the prodigy
Proud hypocrite
We hate your guts, we want you dead
Ignorant
You're the one who deserves
The pain we feel but you don't
So that's why we're going to beat your head into the
ground
And kick out your teeth
And spit on you
Like the scum your mind thought we were
You insisted on crossing our line
Look how many people suck
They are almost everyone
You and your mind lost world
Will be crushed
What makes you think you're so right
When you know you're not
The truth is it's the end of your time
End of your paradise
How inconsiderate
Can one be
Suck society
Bleeding for greed
You'll get what's coming to you
From your own stupidity
You
In our world wouldn't last
Too weak and selfish to stand the test
Grown tired of your insolence
Beat in your head
