"Bitter"

Through my years of depression
I have learned that life sucks
Seems to be no end to pain
Overwhelmed by disappointment

I just want to break something
Anger rushing from me
Life is so Insane to me
Maybe hell is relief

All I know - is that I'm pissed off
Failing again - tormenting my brain

Never was so angry before
But the way life is - so punishing

Waiting for my life to go
In the way I've strived it to
Never get your hopes up high
Expect the worst and all the fucking lies

BITTER ANGER BITTER
