How completely sick
The human race really is
For ignorant mindless reasons
We're all going to die
One more problem to add to the list
How much more stress can i possibly
Take
Creation of the end
From mankind
The suffering isn't over
Yet
No hope for this soon to be destroyed
World
Life sucks
Humans are a disgrace
Hell has reached the face of this
Planet
Leaving all of us to horribly die
Ignorance has caused this
So now this world is crushed
