Conscious travels through sub-conscious realms
Lost in abysmal insignificance
Convinced by impossibility defiling any method or
proof
Deciphering the inconsequential matter naturalized
inside of our manifestation
Unconscious of comprehension
All life forms comprised
Internal tomb of senses
Decay unto the emptiness
Fragmented
Oblivion
Traces of Understanding
Peripheral
Diversion
From any basis of theory
Eroding explanation
Visions falling inside visions
Infection
Spreading itself across a sea of minds
Into
Eternity
Beyond dualist elements controlling images
Induction of connected energy the cause of this
condition
Collective alienation
Reasoning and rational a deficient acceptance of ends

Convinced the future resembles the past
Molding reality to refuse progression disconnected
from origins of being
Repeating these cycles of life
Swarms of perception melted together normality
ripped and reformed
Limiting comfort to a claustrophobic shell comprised by
our own delusions
Instincts deviated by fear driven by brutal aggression
and hate
Embalmed ruins of the ancients crumbling monuments
of fatality
Cumulative ideologies the convergence of intentions
Deny and despise conviction the annihilation of all

significance
Forced schizophrenia by these vast abstractions of life
disguised by false utility
Left with nowhere to turn
Trapped inside virtual captivity
Unable to transcend from this fragmented oblivion
