

Odious Mortem

"Impeachment Now"

Visit "[Impeachment Now](#)" on MotoLyrics.com

It's time to realize what we've done
Our lives are broken by this man who has won
The one who creates mass destruction across the land
The one who represents us with power and greed

All this time honoring - we trusted in lies
I thought the government was supposed to work for us

Impeachment now

Now we're in a war that will never end
And we never found weapons of mass destruction
Innocent are dead - taking everything
Sending troops to die for an unjust cause

Lies

All this time believing - we trusted in lies
Can't you see what we've done re-electing him
Tell the world we agree on his stupidity
I can't believe that we would let this happen

Impeachment now
It's the right thing to do
