Playing this game
No fun called life
Pain
Every frustrating day
There's no way to explain this world
Pushing hard against the hatred
Life's so suck, how can we take it
This world is so cold
Forever feeling stress inside
From what we see through our eyes
This just goes to show
Life sucks
There's no mercy from hell
Negative world in which we dwell
This is not what we like
But this is our view of life
Hate
Respect deleted
From our worldly lives
No hope of regaining
A peaceful life
This life
So suck
Everyday
We feel the stress
